

Abdalah Amadou Gueye

SOFTWARE DEVELOPER

[Portoflio](#) | [LinkedIn](#) | [Github](#)

PROFESSIONAL SUMMARY

I am Software Engineer with 3+ years of experience, holding a master degree in Applied Computer Science. I build high-performance **web applications** used by diverse user bases, using React, Next.js, Tailwind, with a strong focus on clean architecture, UI/UX, and modern development workflows.

SKILLS

- **Frontend:** React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML, CSS,
- **Backend / DevOps:** Node JS, Express JS, GraphQL, MySQL, Supabase, Git, Vercel, Docker, AWS
- **Services / Tools:** Vercel, AWS, Figma, Contentful
- **Languages:** English, French, Turkish, German

EXPERIENCE

SOFTWARE DEVELOPER, SMAL GMBH, MUNICH, GERMANY

JANUARY 2023 – PRESENT

- Developed and maintained reusable UI components with React, Next.js, and TypeScript
- Developed reusable components contributing to a shared design system across projects
- Worked closely with backend engineers to integrate APIs and improve data flow between frontend and backend
- Collaborated on customer-facing features for high-traffic web platforms in a modular architecture

SOFTWARE DEVELOPER, WORKING STUDENT, FUTURE STORIES, HAMBURG, GERMANY

DECEMBER 2021 - NOVEMBER 2022

- Maintained and updated the company's Shopify-based website using Liquid and jQuery.
- Built custom Shopify apps using React.js to enhance e-commerce functionality.
- Contributed to UI improvements and optimized code for performance.

SOFTWARE DEVELOPER, INTERN, OBERTYS, DAKAR, SENEGAL

JANUARY 2020 - JUNE 2020

- Developed banking web applications using React and Angular.

- Integrated RESTful APIs to enable seamless communication between frontend and backend systems.
- Participated in agile development sprints and supported testing and documentation efforts.
